This guidance does not replace any local agreements between staff and judiciary.

Editing the recording

Should there be a requirement to edit the recording, parties will attempt to agree what those edits will be. If there are any disagreements, a mention hearing will need to be convened where the Judge will rule on the edits.

Once the edits are agreed by all parties, counsel will submit an edit form to the court. Staff will then refer the form to the Judge to sign off, which will then be forwarded to the PRE service team by administrative staff.

Edit requests must be made in sufficient time and all requests are subject to a 10 day turnaround.

A copy of the edit form can be found on GOV.UK and the sign-up email.

Disassociation of a Recording

At the end of a case, to comply with GDPR, recordings are disassociated by the court and subsequently will no longer be available in a user's PRE portal account.

When court staff close the case on the internal HMCTS application, an email will be sent to users the recording has been shared with informing them the case has been set to close on a set date.
